FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all-applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.305, sets out the procedures for resolving medical disputes.
2. 28 Texas Administrative Code §133.307, sets out the procedures for resolving medical fee disputes.
3. 28 Texas Insurance Code Chapter 1305 applicable to Health Care Certified Networks.

Issue

1. Did the requestor render services to an injured employee enrolled in a certified network?
2. Is this dispute eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.307?

Findings

1. The requestor filed this medical fee dispute to the Division asking for resolution pursuant to 28 Texas Administrative Code (TAC) §133.307 titled *MDR of Fee Disputes*. The disputed services rendered on February 18, 2016 were provided to an injured employee enrolled in a Certified Health Care Network. The authority of the Division of Workers' Compensation to resolve matters involving employees enrolled in a certified health care network is limited to the conditions outlined in the applicable portions of the Texas Insurance Code (TIC), Chapter 1305 and limited application of Texas Labor Code statutes and rules, including 28 TAC §133.307. In particular, TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by Section 1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation."

28 Texas Administrative Code §133.305 (a) (4) defines a medical fee dispute as "A dispute that involves an amount of payment for **non-network** health care rendered to an injured employee (employee) that has been determined to be medically necessary and appropriate for treatment of that employee's compensable injury. The dispute is resolved by the Division pursuant to Division rules, including §133.307 of this subchapter (relating to MDR of Fee Disputes)." Non-network health care is defined in Section (a) (6) of the same rule as "Health care not delivered, or arranged by a certified workers compensation health care network as defined in Insurance Code Chapter 1305 and related rules..."

The Division finds that adjudicating the disputed service would involve enforcing a law, regulation, or other provision for the disputed service(s), provided to an in-network injured employee. The Division finds the disputed services are not under the jurisdiction of the Division of Workers' Compensation and therefore, are not eligible for medical fee dispute resolution under 28 Texas Administrative Code §133.307."

2. The Division finds that the disputed services were rendered to an in-network injured employee. The TDI rules at 28 Texas Administrative Code §§10.120 through 10.122 address the submission of a complaint by a health care provider to the Health Care Network. The Division finds that the disputed services may be filed to the TDI Complaint Resolution Process, if the health care provider or facility is dissatisfied with the outcome of the network complaint process. The complaint process outlined in Texas Insurance Code Subchapter I, §1305.401 - §1305.405 and may be the appropriate administrative remedy to address matters related to health care certified networks.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution. Even though all the evidence was not discussed, it was considered. The Division finds that this dispute is not under the jurisdiction of the Division of Workers' Compensation and is therefore, not eligible for medical fee dispute resolution under 28 Texas Administrative Code §133.307.

DECISION

Based upon the documentation submitted by the parties, the Division has determined that this dispute is not eligible for resolution pursuant to 28 Texas Administrative Code §133.307.
